## ASK DOCTOR HIPPOCRATES

BY EUGENE SCHOENFELD, M.D.

### HOW TO STOP SMOKING

You've read the reports and you've heard the statistics. By now, even you are convinced that cigarettes cause lung cancer and emphysema and heart disease. That pregnant mothers who smoke have more stillbirths or deliver babies with low birth weights. Perhaps you've told yourself and others: "I can quit anytime I want." But you haven't done so yet, in spite of the overwhelming evidence that chronic tobacco use maims and kills.

Trouble is, the effects of tobacco usually appear only after years of use. It's difficult for most people to make the necessary mental leap connecting one or two packs of cigarettes today with agonizing disability or death twenty years and a quarter of a million inhaled cigarettes down the line.

Besides, you're addicted. Hooked, physically and mentally. And the employers of 600,000 families in the tobacco industry engage the services of clever, if soulless Madison Avenue mind-manipulators to make sure you maintain your tobacco habit.

The Marlboro man has surely killed more people than all other Western badmen combined. You probably started smoking cigarettes as a teenager. The nausea and dizziness from your first cigarettes soon passed. Before long you truly enjoyed the sensual pleasure of drawing smoke into your lungs and blowing it out again. "You like the stimulant effect of the nicotine." On a less conscious level you appreciated having something to do with your hands as well as gratifying those primitive but ever-present oral needs.

By now you're smoking one to four packs of cigarettes a day, and have developed a strong physical and psychological dependence on tobacco. Even if you can still separate smoking pleasure from addiction, you know it's unnatural and harmful to constantly fill your lungs with smoke.

You may feel ashamed that cigarettes seem so necessary to your life. Finally you've decided to save your health and pride by giving them up. The thought of going without cigarettes may make you fumble about unconsciously for something to smoke, but a variety of methods can liberate you from a tobacco habit.

Medical Letter, a non-profit publication for physicians, recently evaluated the most common methods used to stop smoking.

1. FEAR - Detailing health consequences of smoking is traditional but causes anxiety in some people who then smoke even more, while others become defensive and stubbornly continue the habit.

2. DRUGS - Well-controlled studies have found Indian tobacco or lobeline (Banton, Nikoban) no more effective than a placebo. Ten out of 43 Swedes using a nicotine chewing gum remained abstinent after one year. No evidence exists that tranquilizers like Valium benefit people who wish to stop smoking.

3. FILTERS - Water Pik's "One Step at a Time" costs about \$10 and involves using fur graduated filters. Each filter is used for two weeks with the fourth filter removing 90 percent of the tar, nicotine and carbon monoxide.

Medical Letter wryly observes, "The success of this method can be perhaps measured by the separate availability of filter number 4 (two for \$5), for those who do not quit smoking at the end of eight weeks."

4. ADVERSIVE CONDITIONING - Adversive methods include drugs which make tobacco smoke taste unpleasant, electric shocks, blowing smoke at the smoker, and rapid smoking (inhaling smoke every six seconds until dizzy or nauseated). Rapid smoking has caused a rapid heartbeat and electrocardiograph abnormalities in some patients.

5. CLINICS AND ORGANIZED GROUPS - Some studies show a long-term success rate of 20 to 25 percent for clinics and groups, even though they tend to attract the most difficult problem smokers.

This category includes: The Five Day Plan, sponsored by the Seventh Day Adventists, offering lectures, smoking cessation techniques and group meetings. Shick Laboratories includes rapid smoking and electrical shocks in one hour sessions for five consecutive days, followed by eight weeks of

reinforcement in weekly one-hour sessions. The cost is about \$500.

Smoke Enders hold eight weekly meetings offering a program emphasizing self-awareness, behavior modification, positive conditioning, and a year of periodic meetings. The cost is \$225 to \$295.

6. SELF-HELP METHODS - Several anti-smoking methods involved complicated record keeping and rituals like smoking only at pre-set times or recording the activities associated with smoking.

Cigarettes may be locked up or smoking confined to one place in the house.

Chewing gum, toothpicks, singing or needlework may be substituted for cigarettes.

One self-help, aversive method involves wearing a large rubber band on the wrist and snapping it to cause pain on feeling the urge to smoke.

7. SELF-HELP MANUALS - Anti-smoking programs with several components may produce a success rate of 50 percent or more.

Recently published books containing multi-component

programs, include Break The Smoking Habit, Research Press Company, 1977; Become an Ex-Smoker, Prentice Hall, 1978; and You Can Quit Smoking in 14 Days, Berkeley Medallion, 1978.

8. COLD TURKEY - Some Medical Letter consultants claim most patients who remain abstinent have stopped abruptly.

I can also suggest a variation on this technique. Make up your mind to stop smoking for one day only. You can do it - even the most strung-out junkie can go one day without a fix.

Going without cigarettes for a day will give you the confidence needed for the next step. In a week, go without smoking for two days. The following week try three days. Continue until you no longer smoke cigarettes.

Medical Letter suggests the most elaborate program may be best for some patients. Choose a method suitable for you and follow it. Surely you weren't meant to go through life and to your death puffing on little white cylinders.

# Advertising techniques consistant since 1901

**BYS. GRADY  
THIGREN**

Among old papers in a box belonging to Oscar Dean of Pearl River, La., was a high pressure sales letter dated May 1, 1901.

It was written by hand in beautiful handwriting by a man selling electric belts for men. These belts were warranted to cure most any ailment to which man is subject.

While the typewriter has replaced handwriting, and the use of the English language has somewhat changed, there is the same old appeal for business now but in the more sophisticated language and methods of today. Here's part of the long letter:

"Dear Sir: Incidentally hearing that you are afflicted with one or more of the troubles I guarantee to cure, I thought I would write you in the strictest confidence and herewith take pleasure in enclosing my pamphlet. (Here's a real come on)

"Knowing that, from experience that wherever my goods are introduced, I get more orders from that locality, I will let you have my best No. 3 grade belt with appliance for \$9, or my best No. 3 belt alone for \$6 or any other appliance I have for half price.

All I ask in return is that you will, after being cured yourself, recommend my belt to your friends."

In the pamphlet which accompanied the letter there were two pictures of a good sized man with a distinguished looking mustache.

The first picture showed the man looking tired and dejected. The other with the electric belt on showed him lively and dancing a jig.

The letter goes on at some length to guarantee the belt, money refunded if not fully satisfied. This old letter is a fair example of the advertising done back years ago.

I remember when the patent medicine ads which claimed to cure just about everything, were printed on barns and other buildings over the countryside.

There were personal letters in this old box reflecting the thinking, way of expression, and the conditions existing back 75 years ago. Here's one of them:

Dear Cousin: "I write to inform you that I received your letter and was glad to hear from you. It is fodder pulling time and I have a lot of fodder pulled down and it looks like rain so I got to watch out.

"Well, you never told me what sort of time you had on the 4th. I will tell you that I had a real nice time. I went to a party and just sparked the girls until it was a sin.

If you can't come to the big meeting I know you'll miss half your life and the best half. "Mama is cooking dinner and Nelson is building him a house. He says he needs a cook mighty bad. Tell the folks in the island I want to see them mighty bad.

It looks like I'll never get there though. My ink jug is about dry so will quit for this time. Your Cousin."

In the box of old letters and papers were several road tax receipts. Back in the old days every able bodied man below a certain age was required to work 5 days annually on the public roads.

I remember that my father took off a week once a year to work the roads along with others in our area.

Later on around 1900 a road tax could be paid by citizens in place of doing the weeks work.

Another interesting letter in the old box is typical of March 1, 1884, the time at which it was written.

Dear Cousin: I seat myself to write you a few lines to let you know that I am well and here is my respect to you and all your family.

Give my best regards to all. The baby and mother is sick. At this time father works on the road. When we get the crop planted I hope to see you and you must come to see us as soon as you can.

"I'll come to a close as I have nothing important to say

to you. You must not think too hard of this bad writing. Your Friend."

Here's another letter in the same handwriting:

"Dear Cousin: My girl told me that I was the one for her. She is sweet, she is nice, she is good enough to eat raw. I told her I loved her better than candy. I stayed with her all day Christmas. I'll tell you who she is when you come over. Your Cousin."

Here's still another short letter in the same handwriting:

"Dear Cousin: I heard you all are going to move over to your potato patch. There is enough public land over here near us for two or three more homesteads but I don't know how long it will stay public because it is being taken up all the time, so if Jimmy wants a homestead he had better come soon and see if he likes any of them."

It is interesting to note that public land was still available.

To gain title to a tract of public land up to 160 acres all a person had to do was make application to the proper government agency and then

live on it for 5 years, no money required.

There were a number of tax receipts among the old papers. One dated Nov. 7, 1907 was for 75 cents which paid all the taxes on a 10 acre place with home on it.

An interesting love letter dated Aug. 10, 1896 and post marked Kiln, Miss. was in the box of old papers.

"Dear friend: I want to know if you are going to give me my answer now or not. If you will we will lock our hearts together and throw the key away and be as happy as the day is long or my name is not John.

I love you now and always have and always will. I think of you daily and dream of you every night. You are the flower of my heart and the leaf of my love. We have been talking long enough I think.

If you are willing we will come to an understanding for which it is time, don't you think darling? If your answer is favorable I'll come before long and settle things more to my notion.

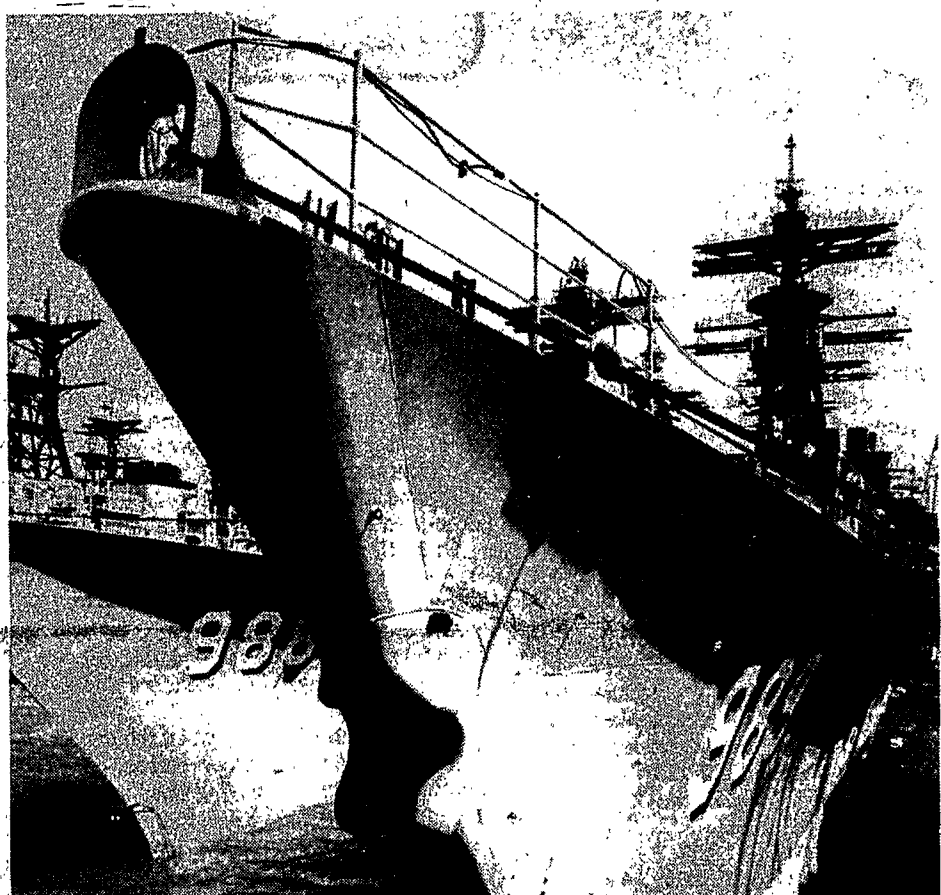

I want you to answer my letter soon. The stars will

falter as they cross the day before I forget you, but that will never be, my heart will hold your memory and never shall forget you."

One more letter from the many in the old box, dated Sept. 17, 1894 reads as follows: "I seat myself to write you a few lines. I will go to Henleyfield next Sunday if nothing happens for I want to see that girl again. It has been a long time since I've seen her but that is nothing. I went to the picnic and seen more girls and the most pretty girls. I will tell you that I was popular. I had two girls to myself.

I want you and Sara and Tom to come over to the big meeting at Sones Chapel the third Sunday in October. Write me if you are coming and I'll meet you at the train. Sara, I am glad the girls over there want to marry for I will come and try to get one of them. If they want have me I cannot help it but I'll be over to look at them anyway. I will close for I am sleepy."

There were many other letters and old papers in the old box.

**NEXT IN LINE**—The multi-mission destroyer DEYO (DD-989) stands next in line to receive the traditional champagne christening at Ingalls Shipbuilding division of Litton Industries in Pascagoula on Saturday. The ship became the fourth in three months and 27th destroyer in a series production of 30 to be christened at Ingalls. The 63-foot long, gas turbine powered ship is named for the late Admiral Morton L. Deyo, a distinguished World War II task force commander and veteran destroyerman. His daughter, Mrs. James H.P. Garnett of Easton, Md., was sponsor and christened the destroyer. (Photo courtesy Ingalls Shipbuilding)

## HGH auxiliary Style Show

Hancock General Hospital's Auxiliary is sponsoring a fund-raising style show and salad bar Wednesday at 11 a.m., Virginia Hall, Christ Episcopal Church, Bay St. Louis.

Featuring fashions from Pauline's, the show is open to the public with admission set at \$5.

"This is the only money raising event sponsored by the Auxiliary each year," said Auxiliary spokesman Muriel Brokmeier.

The hospital is growing every day and striving for a place in the community, but the community has to help, she urged. "The hospital is for everyone and needs everyone's support."

## News from the Church of St. Ann

A thought for the day from the library of Father Canisius Hayes, pastor, St. Ann's Parish:

A greater poverty than that caused by money is the poverty of unawareness. Men and women go about the world unaware of the goodness, the beauty, the glories in it. Their souls are poor. It is better to have a poor pocketbook than to suffer from a poor soul.

Religious education classes for the children of St. Ann's and St. John's will be Tuesday, April 3, for the 1st through 4th grades immediately after school in the parish hall and on Thursday, April 5, for grades 5-8.

Tuesday evening, April 3 at 7 p.m. the first meeting of the youth and the lay supervisors will take place in the parish hall.

Tuesday afternoon, April 3, at 2 p.m., the second parent meeting for the group preparing for the Sacrament of the Holy Eucharist will be held, according to Sister Mary Cornelia, religious coordinator.

Wednesday morning, April 4, the rosary will be recited after the 9 a.m. Mass at St. Ann's.

Lenten Devotions Wednesday, April 4, 7:30 p.m., St. Ann's.

Lenten Devotions, St. John's, Friday, April 6, at 7:30 p.m., Lakeshore.

The first pre-fair activity for St. Ann's - St. John's Annual Parish Fair will be a rummage sale to be held Saturday, April 7, from 9 a.m. till 2 in

front of Kent and Sue's on Lower Bay Road, Lakeshore. Mrs. Gerard Boos, chairman, reports there are many good buys in children's shoes and clothing as well as wooden bunk beds and other attractive buys in odds and ends.

Coming April 21 in the parish hall will be the annual meatball and spaghetti supper. Takeout orders will be available.

## St. Rose Parish

**sets Variety &**

**Style Show today**

St. Rose Parish is presenting a Variety show today at 2:30 p.m. at the St. Augustine Auditorium.

Leon Kelter of the Broadwater Beach Hotel in Biloxi, accompanied by his Vocalist Miss Darlene Greene, will make a special guest.

Also appearing in the show will be Mrs. Peggy Jo Tedford, choir director of Bay High School and her Sextet and Quartet.

The show will include entertainment by local individuals plus a style show. Theme of "Variety 79" will be "Let us add a little spice to your life."

All proceeds from this show will go to support of St. Rose Church and School.

Tickets are now on sale at \$3 each and may be purchased by calling 467-3839 (Mrs. Joan Mitchum) or 467-9585 (Mrs. Gerry Lang).

## Editorial

## Everyone should be congratulated!

Early reports show the annual Spring Pilgrimage was a big success.

Efforts were made by many officials and individuals to clean up our communities, and they should all be congratulated.

The individuals and families whose homes were on display should all be complemented, and oh, yes, their friends who helped as hosts and hostesses as well.

We had visitors from throughout the United States and even other nations. They were offered some real Southern hospitality. We should all be proud of our communities.

The visitors should be commended for their respect of our communities. We have nothing but compliments from everyone on the grand manner in which the many folks away from home conducted themselves on their visit here.

We hope they will return again next year.

We also feel that there should not just be an effort to clean up for the Pilgrimage each year. We should all take pride in keeping our communities clean everyday of the year.

All it takes is a little extra effort by everyone, and what a difference a clean community makes in the eyes of visitors.

## Full schedules in Hancock, Pass mark National Library Week

The week-long observance of National Library Week continues in Hancock County today, with Super Sunday events, including a 2 p.m. Chopin concert by pianist Colby Fabian, art exhibit by Nell Ducomb, reception and open house at City-County Library on US-90, Bay St. Louis.

The Waveland Library on Coleman Avenue will present a 3 p.m. variety and talent show from 3 to 5 p.m. at the adjacent Civic Center.

Bay Waveland Gun and Rod Club will conduct a workshop on water and boating safety at the Bay Library beginning 2 p.m. Monday.

Rules of sportsmanship in the water as well as safety slides and tapes furnished by the Water Safety Patrol of Hancock County are included.

Gerry Grinnell, Water Safety Patrol Officer and Frank Ladner, president of the Gun and Rod Club will conduct the event.

The workshop is open to children as well as adults and is the first course conducted at the library in conjunction with National Library Week.

The extensive doll collection of Mrs. Clifford Backlund will be on display at the Waveland Library beginning Wednesday.

The exhibit will include Madame Alexander's First Lady Series consisting of Martha Washington, Abigail Adams, Martha Randolph, Dolly Madison, Elizabeth Monroe and Louisa Adams.

Her "Little Women" series of Madame Alexander dolls includes Meg, Joe, Amy, Beth, and Laurie.

Mrs. Backlund began collecting dolls as a child and not only orders from dealers, but goes to auctions, doll hospitals, and any place where a "collectible" doll may be found.

Besides the sheer enjoyment of collecting, Mrs. Backlund adds that one learns much about the historical period and mode of dress surrounding each doll.

Mrs. Backlund deals mainly in character dolls such as Shirley Temple, Howdy Doody, Sonny and Cher, Muhammad Ali, the Blonk Woman, Police Woman, O.J. Simpson, and the six-million-dollar man. She also has the complete set of characters from the

movie Star Wars and the television series The Waltons and Happy Days as well as a Renoir "portrait" doll. Her oldest doll is one from 1910.

This exhibit will delight both adults and children and the public is cordially invited to view it on Tuesday, April 4, from 10:00 to 6:00 p.m. at the Waveland Public Library.

Indian and Eskimo artifacts and fossils will be featured in the City-County Library's Bicentennial Display Case throughout the month of April through the courtesy of Mrs. Frances E. Walker, a resident of the Naval Home in Gulfport.

Mrs. Walker, an active member of the Mississippi Gulfcoast Gem and Mineral Society, the Southeastern Federation Mineralogical Society and the Mississippi Archaeological Association, spent several years in Alaska, where she worked as a nurse, serving the Indian-Eskimo population and traveled by dog sled or helicopter to remote interior areas.

Her free time was spent in collecting fossils and artifacts and learning little known facts about the natives of the area.

Mrs. Walker's experiences include a ten-year duty as Chief Nurse (Army) at White Sands Missile Range, New Mexico.

She was with the Indian Health Service in Alaska, New Mexico, Arizona, and South Dakota.

An experienced hiker, camper, and one who has also done some mountain climbing, Mrs. Walker has an amazing collection of slides showing the story of some of her fascinating experiences.

Her selection for the Library Display is splendid and of museum quality, highly recommended for schools and special interest groups as well as regular library patrons.

### LIBRARY WEEK EVENTS Hancock County Library System

Sunday, April 1  
SUPER SUNDAY at City-County Library 2-4 p.m.

Performance by pianist Colby Fabian. Opening of art exhibit by Nell Ducomb. Reception and open house. SUPER SUNDAY at Waveland

CRASH KILLS—Benjamin Montero, 22, of Fort Polk, La., was killed about 7 p.m. Friday when his car crashed into the rear of a trailer truck parked on the I-10 shoulder some three miles east of Hwy. 603. (Staff photo-Leale Williams)

## Man dies in I-10 mishap

By LESLIE WILLIAMS  
Benjamin (sic) Montero, 22, of Fort Polk, La., died Friday night when his car collided with a trailer parked on the shoulder of I-10 two miles east of Hwy. 603, police reported.

Montero, accompanied by his wife Valerie Montero, 21, and Ricky Isaac, 22, both from Fort Polk, was driving east on I-10.

He drove onto the right shoulder of the highway and into the rear of a parked trailer truck belonging to Riser Construction Co. of Gulfport at approximately 7 p.m., said Mississippi Highway Safety Patrolman Raburne Silkwood.

Mobile Medic, stated Silkwood. Ricky Isaac was unharmed, the officer continued.

"Thomas Barrett, 32, trailer truck driver, said he drove his rig on the side of the road to examine the tires when all of a sudden he felt something bump the rig," explained Silkwood.

Apparently the driver of the Plymouth Valiant never braked, because no skid marks were found. "He just ran right into the end of the truck," remarked Silkwood.

Hancock County Coroner Carl Banderet pronounced the Louisiana man dead.

The car was damaged beyond repair.

Colby Fabian

Library - 3 - 5 p.m.

Friday, April 13  
Poetry and poster Contest winners awarded. 4 p.m.

## Weather Service urges tornado safety savvy

We can do little to prevent a tornado from occurring, but by knowing the safety rules, we can keep the number of deaths and injuries to a minimum.

A TORNADO WATCH means that tornado development is possible. Keep an eye on the sky for threatening weather and stay tuned to radio and television and listen for weather bulletins.

A TORNADO WARNING means a tornado has been sighted or indicated by radar. Persons in the path of the storm should seek shelter immediately, preferably in a storm cellar, underground excavation, or steel framed or concrete reinforced building.

In homes... the basement offers the greatest safety. Seek shelter under sturdy furniture if possible. In homes without basements, take cover in the center part of the house on the lowest floor in a small room such as a closet or bathroom, or under sturdy furniture. Stay away from windows.

In schools, hospitals, and shopping centers... move to designated

shelter areas. Interior hallways on lowest floors are best. If the building is not of reinforced hallways on lowest floors are best. If the building is not of reinforced construction, go to a nearby one that is or take cover outside on low protected ground. Stay out of auditoriums, gymnasiums, and other structures with wide-span roofs.

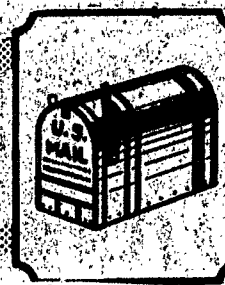

In open country... move away from the tornado's path at right angles. If there is not time to escape, lie flat in the nearest ditch or ravine.

Mobile homes are particularly vulnerable to overturning during strong winds and should be evacuated when strong winds of tornadoes are forecast. Damage can be minimized by securing trailers with cables anchored in concrete footing.

Trailer parks should have a community storm shelter, and a warden to monitor broadcasts throughout the severe storm emergency. If there is no shelter nearby, leave the trailer park and take cover on low protected ground.

## LETTERS

To The Editor

### Poison alert for pet owners

March 30, 1979  
Sea Coast Echo  
Bay St. Louis

Dear Editor:

Please publish the following letter and warning to animal owners! We feel that someone in our vicinity is putting out poison.

We have lost three cats, four chickens, and have buried two dead dogs.

From our observation, it had to be poison.

If you have a pet that strays from home, please take this warning. It could be just a matter of time until you lose it.

Sincerely,  
Mr. and Mrs. J.A. Breland  
US-40 and Arnold Street  
Waveland

### Bank president lauds coverage

Mr. Ellis Cuevas  
Sea Coast Echo  
Bay St. Louis, MS 39520

Dear Ellis:

This is somewhat late but we do want you to know how sincerely we appreciated the very fine coverage you gave us in your article on the Hancock Bank Symposium that took place last month.

You covered the talks and the information presented there very factually and we are grateful to you for the consideration that you give us here at the Bank in the news stories that you write.

Sincerely yours,  
Leo Seal  
President, Hancock Bank

A. F. Summer, Attorney General

### AUTOMOBILE RUST

Q: Can you give me any information on automobiles that rust?

A: Rust can shorten the life of your car. The National Highway Traffic Safety Administration says you can make your present car last longer if you fight rust with simple, regular car maintenance.

The best protection for a car is rust-proofing when it's new. This is better than just undercoating because it's a special treatment for rust-prone areas.

Undercoating alone may be of little help, and it's not good at all unless it's done before you start using the car.

Even if you didn't rust-proof your new car, you can fight rust by washing it frequently and waxing it twice a year.

And don't just wash the body. Use a forceful spray to clean the underside of the car, including frame, fenders and wheel wells.

It's most important to protect the car from salt, sand, and other corrosives common to winter driving or beach areas.

Wash the car soon after driving in slush or on the beach.

Where sand and salts are used on snowy roads, hose down the underbody at least twice a year. Mid-winter and spring are best times for this.

Rust can attack your car fast and shorten its life. Repair rust spots and dents right away, and check your car for hidden rust damage under carpets and trunk mats.

And, check the frame. If you find it rusted, have a welding shop strengthen it right away - it could be dangerous.

The Consumer Information Center, Pueblo, Colorado, 81009, offer a fact sheet on automotive rust which you may wish to obtain from them.

### SALE STARTS 1ST DAY

Q: I have heard that if an item goes on sale within 10 days after its purchase, the purchaser has the right to be refunded the difference between the amount he paid and the sale price. Is this correct?

A: Many Mississippians have contacted my office of Consumer Protection within the last few months with this same question. No, this information is not correct within the State of Mississippi. Evidently sometime during the year either another state passed a law such as this or maybe a store adopted a store policy such as this. There is, however, nothing in Mississippi laws which requires a store to make this its policy.

## Unionizes...

CONTINUED FROM PAGE 1A

"The AFT compiled without contest to Landrum-Griffin back in 1965 when we had only two locals with private sector employees. The NEA has been dragging its feet on this issue," Shanker said.

"Clearly it did not want its finances or elections open for public inspection," he added.

## Health Tips

DRIVER FITNESS  
URGED

(Presented as a Public Service by the Mississippi State Medical Association and this newspaper.)

Auto accidents don't just happen. They are caused.

An overwhelming proportion of them are caused by the human element. Sometimes this human element involves a driver with a physical or emotional condition that makes him a less than ideal driver.

You are in good health? You have an excellent safety record. Yet, under certain circumstances, it can be dangerous for you to be in the driver's seat, the Mississippi State Medical Association points out.

The emotional stability of the driver is important in maintaining traffic safety. You owe it to others - and to yourself - not to drive when you have serious problems on your mind.

If you are thinking about that argument you had before you left your home or office, if you're in a depressed or angry "I-don't-care-what-happens" mood, if you're very worried about a personal problem, you're better off not driving.

### It's News To Me

by Betty Carroll

**Sticky Lock? Try This**  
 PADLOCKS should keep burglars out. But when they keep you out, it's a problem. Unfortunately, wet weather can cause any padlock to jam or stick. To solve the problem quickly, spray the lock lightly with WD-40. The original product of its kind, WD-40 penetrates rust, lubricates and protects locks from further damage. WD-40 is available at hardware and other retail stores.

### "Happy Endings" Booklet

NEARLY everyone looks forward to dessert, and now you can guarantee your family a month of "happy endings" with 29 delicious pudding recipes from the people at Swiss Miss. Each recipe begins with a happy ending in itself—Swiss Miss Refrigerated Puddings. To get your recipe booklet, send 35¢ to Swiss Miss, 29 Happy Endings, P.O. Box 9282, Madison, WI 53715.

### Someone Must Win!

IF you're watching this year's finals of "America's Junior Miss" competition on CBS-TV, April 14, you too may win. Breck hair products, telecast sponsor, is awarding \$15,000 to a lucky viewer who mails in an entry blank appearing in 80 major Sunday newspapers the week before. Write in the three top winners, then hope you're picked in the drawing. Long odds? Well—someone must win!

## BUILDERS KNOW BEST

"The E3 concept combines the best features that we can offer in the home we build and sell today. All the energy saving ideas incorporated into the E3 Home are saving our homeowners hundreds of dollars in heating and cooling costs."

WAYNE HUDSON, PRESIDENT KAM LIPS PROJECT COORDINATOR SINGING RIVER CONSTRUCTION CO., INC. OCEAN SPRINGS

More southeast Mississippi builders, contractors, and realtors than ever before are discovering that E3 construction is the preferred and accepted way to build a home today.

Proper insulation, ridge ventilation, insulated exterior doors, double glazed windows, insulated or interior ductwork and the electric heat pump combine to give the homeowner up to 60% savings on heating and cooling costs.

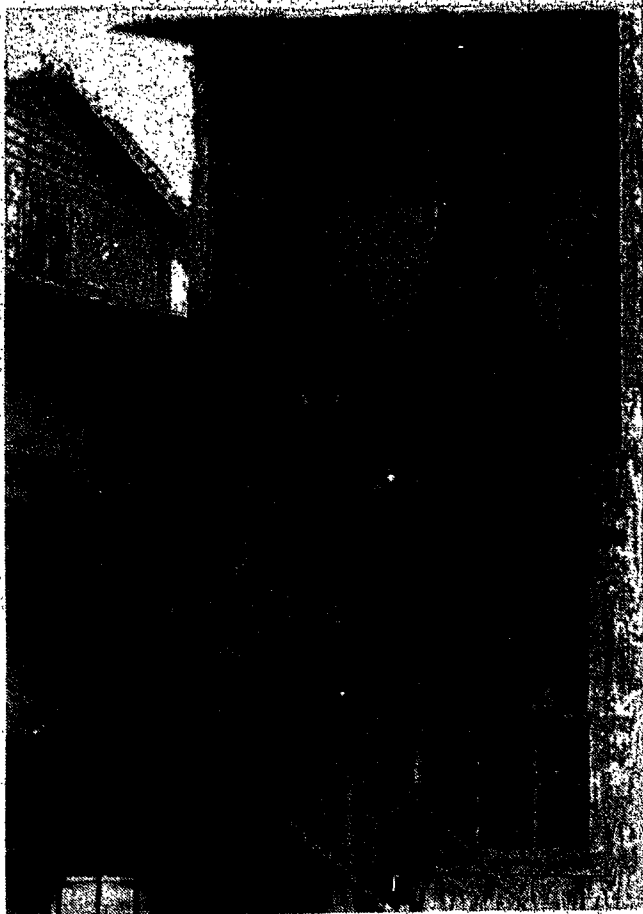

No matter what size or style house you are planning to build or buy get the facts on E3 construction first from Mississippi Power Company.

**FIREMEN RESPOND**—Bay St. Louis Firemen made their third appearance Monday in recent weeks to extinguish a fire at the Pendergraft residence on Touline Street, Bay St. Louis. Among those extinguishing the fire Monday were Bay firemen Alphonse Sheppard, left, Domonic San Fillippo and Anthony Alexis. (Staff photo-Ellis Cuevas)

## OBITUARIES

### JAMES O. NORMAND

James Odell Normand, 67, Kiln Community, a security guard for Shultz Security Systems, Diamondhead, died Friday, March 30, 1979, at 12:50 a.m. in Hancock General Hospital, Bay St. Louis, after being stricken at his home, Rt. 3, Box 642.

Mr. Normand, born in Mansura, La., Nov. 17, 1911, had been a resident of Hancock County for 40 years. He was a past member of the Bay St. Louis Masonic Lodge No. 429, F&AM, and a member of the Scottish Rite and York Rite Bodies. He was a past Shriner. Mr. Normand served in the Marine Corps in World War II.

He is survived by his wife, Mrs. Gertrude Breecher Normand, Kiln; his mother, Mrs. Louisa Gremillion Normand Elfer, New Orleans; one son, Emmett D. Normand, Plaquemine, La.; two daughters, Mrs. Darling (Normand) Burrow, Kiln, and Mrs. Linda Lee (Normand) Clower, Biloxi; two brothers, Denver J. Normand and Joseph V. Normand Jr., New Orleans; two sisters, Mrs. Hazel N. Tomeny, White Castle, La., and Mrs. Rita May Lopez, New Orleans; and two grandchildren.

Visitation was Friday from 6:30 to 9 p.m. at the Edmond Fahey Funeral Home in Bay St. Louis. The funeral was Saturday at 11 a.m. at the funeral home chapel followed by burial in Resthaven Cemetery, Long Beach.

**FUTURE SCIENTISTS** Claire Thomas, left, Danny Welch, Michael A. Kergosien, and Nikki Schubert took first through fourth place respectively in North Bay Elementary's Science Fair. (Staff photo-Rich Adams)

## OBITUARIES

### MAE MOORE

Mrs. Mae Moore, 46, of Route 3, Pass Christian, died Thursday, March 29, 1979, at the University of Mississippi Medical Center, Jackson.

Mrs. Moore, an Alabama native, had been a resident of Pass Christian for six years. She was a Catholic and was formerly associated with her husband in the operation of the Blue Room Cafe in Pass Christian.

Friends may call Sunday from 8:30 to 9 p.m. at Riemann Funeral Home's Pass Christian Chapel.

A 2 p.m. Mass will be celebrated Monday at St. Paul's Catholic Church in Pass Christian with burial in St. Joseph's Cemetery in Rotten Bayou.

Mrs. Moore is survived by her husband, Marshall J. Moore Jr. of Pass Christian, and several sisters.

### EARL ANDERSON

Visitation for Earl Anderson, 88, of Kiln Community will be tomorrow from 6 to 8 p.m. at the Riemann Fahey Funeral Home Chapel in Bay St. Louis.

Interment will be Monday 2:30 p.m. at the Biloxi National Cemetery.

Mr. Anderson died Friday, March 30, 1979.

A retired veteran mechanic for Eastern Airlines, he was a Protestant, and served in the Army during WWII.

Anderson was born in Canada and had resided in Kiln Community for one year. Survivors include his wife, Caroline Anderson of Kiln; one son, Kenneth Anderson of Villavieja, N.C.; one daughter, Mrs. Wanda Messenger of Ontario, Canada; two sisters, Mrs. Lucille Coyne of Cedar Rapids, Idaho and Mrs. Dana Ford of Winston, Canada.

**WINNERS IN THE** physical display category of the North Bay Elementary Science Fair are, from left: Kirk Bourgeois, for his first place display on solar energy; Dennis Dear, second place, who constructed a solar con-

centrator; Robert Compretta, third place, who demonstrated the orbits of the planets; and Kelli Kuhl, who demonstrated changing mechanical energy into heat. (Staff photo-Rich Adams)

**BIOLOGICAL CATEGORY** winners in the North Bay Elementary Science Fair are, front, from left: first place winner Connally Compretta for her display of blood and its components; Dee Dee Kelly, second place, for a display of the heart; Keerron Byrd, for her third place display of

facts and parts of flowers; Martha Trombly, tied for third with her display of oxygen absorption in blood; and, in rear, Alecia Pearson and Amy Compretta for their fourth place project, the tongue and its organs. (Staff photo-Rich Adams)

### SMITHSONIAN SHOW

"Musicians," a drawing by University of Mississippi art professor Jere Allen, is one of 51 works chosen for a two-year tour of some 15 American and Canadian cities. The tour is sponsored by the Smithsonian Institution Traveling Exhibition Service. Allen's work was selected from among 950 entries submitted to the American Drawings II competition organized by the Portsmouth, Va., Community Arts Center.

## EMPLOYMENT

18. Help Wanted, Miscellaneous

Engineering  
Mason Chamberlain, Inc., government contractor to  
operate the Mississippi Army ammunition plant, is  
seeking qualified applicants for the following position.

## ENGINEERS, INDUSTRIAL

Experienced in manufacture of metal parts, procurement  
of heavy metal forming equipment, cost estimating, and  
methods of material handling. Responsible for detailed  
planning and the complete execution of the planning for  
start-up of the plant.

## ENGINEERS, MANUFACTURING

Experience in tool room operations, including CNC con-  
trolled equipment. Ability to develop specification,  
evaluate vendor proposals, monitor procurement and in-  
stallation of equipment. BSME or equivalent experience.

## ENGINEERS, MECHANICAL

Mechanical engineer experienced in HVAC and main-  
tenance. Responsible to evaluate plant HVAC design and  
assist in the preparation of maintenance plans and  
procedures.

ENGINEERS, MECHANICAL/  
PLANT ENGINEERING

Strong background in plant engineering. Will assist in the  
evaluation of plant utility system design. Knowledge in  
electrical control systems for NC equipment is helpful.

ENGINEERING PROJECT/  
FACILITIES ENGINEERING

Heavy experience in installation and debugging of  
production metal working equipment, i.e., forging heat-  
treating-machining and metal preparation. Working  
knowledge of major power, control power and piping  
essential. BSME-BSEE or equivalent experience.

## ENGINEERS, QUALITY

General knowledge of quality assurance in the metal tur-  
ning industry. Knowledgeable of MIL-Q-9858 MIL-I-45208  
and their associated specifications. Must have quality  
experience in specifications writing for procurement of  
sophisticated inspection equipment, writing inspection  
plans and operator instruction manuals.

## DRAFTSMAN

Immediate openings for experienced Draftsman. Knowledge  
of mechanical drafting preferred. One to three years ex-  
perience.

## SALARIES OPEN

If you are interested in a challenging opportunity with a  
growing corporation located 50 miles from New Orleans, on  
the Gulf Coast of the "sunny southwest Mississippi", Call  
(601)798-0070 or send resume to:

**INTOXILYZER**—Hancock County Sheriff's Deputy Ronnie Peterson demonstrates the use of an intoxilyzer recently obtained by the sheriff's department as Sheriff Sylvan Ladner observes. The machine analyzes the motorist's breath, measuring the percentage of alcohol in the blood to determine degree of intoxication. The major benefit of this machine as compared to earlier models, is that the intoxilyzer can not be tampered with by the operator because of its automated design, states Ladner. (Staff photo: Leslie Williams)

## Hancock Mormons mark anniversary

Local members of the Church of Jesus Christ of Latter Day Saints, also known as the Mormon Church, will mark the 149th anniversary of the founding of their denomination Friday, April 6, at the chapel on McLaurin Street and Nicholson Avenue in Waveland with an open house beginning at 7 p.m.

A film entitled 'Are You Listening?' will be shown along with exhibits on the various activities of the church auxiliary.

"The public is cordially invited to attend this free assembly. Refreshments will be served," said T.R. Bosley of Bay St. Louis, church spokesman.

Bosley said the local congregation is included among 13 such units comprising the Hattiesburg 'Stake' encompassing South Mississippi.

Comparable stakes are centered in Jackson; Mobile, Ala.; New Orleans; Baton Rouge and Shreveport, La.

Bosley said more than four million members currently are organized in some 1,000 stakes and 175 missions worldwide.

He noted the April issue of Reader's Digest features 'interesting and informative' facts on the church.

# Hornets outslug Bay High Tigers

By RICH ADAMS  
The Bay High Tigers were defeated 16-9 in a non-conference baseball contest Thursday night in a slugfest with the East Central Hornets.

Bay High Baseball Coach  
Claude Yarborough

The Hornets exploded in the fifth inning for 11 runs, following a home run by Bobby Jackson in the second

and another by pitcher Stacy Jordan in the third.

The Tigers also went wild in the fifth, scoring seven runs on five singles, three walks, and a double.

The Tigers scored a run in the fourth stanza as Melvin Barnes tripled in pitcher David Strong following Strong's single.

In the fifth, Robby Boyd led off the Bay High scoring drive with a single.

Ricky Hardie followed with a walk, and Clark Breland doubled to score the runners.

Scott Davis was walked, Strong singled, and Dwayne LaFontaine drew a walk.

Barnes blew open the day with another single, followed by back-to-back singles by Hootie Adam and Boyd.

"East Central hit everything we threw at them," Bay High Head Coach Claude Yarborough.

"We had seven errors, and of their 16 runs, only five were earned," he continued.

"They hit the ball hard...I am glad they weren't a conference team," the coach added.

Strong took the loss for the Tigers, after he was relieved by Steve Seymour and Dwayne LaFontaine.

The Bay nine are now 6-11 for the season, and remain undefeated in conference play, 4-0.

Bay High catcher Dwayne LaFontaine, partially hidden by umpire, looks on as Hornets greet

No. 28, Stacy Jordan, following a home run

## Hawks trounce Panthers

Alan Dedeaux turned in an outstanding performance with two home runs, a pair of doubles, and eight RBI in five trips to the plate as the Hancock North Central Hawks demolished the Lumberton Panthers, 22-10.

HNC's Steve Nunn had three hits in five trips to the plate. Ricky Peterson, Brian Arcement, and Chris Hoda each went two-for-four.

Danny Ladner, the winning pitcher, struck out four and walked five in four innings for the pitching victory.

**UNTAPPED ENERGY**  
Scientists may be overlooking a potential energy source in the electric catfish of Africa. Of the electric eel found in the Amazon River, watersheds in South America.

Still too far away? Then let's consider the electric fish living in the coastal waters of North America.

According to information from Mercury outboards' fishing department, there are at least three electricity producing fish which live next to our shores. They are the Atlantic electric ray, ranging from Nova Scotia to Cuba; the Pacific electric ray, which lives from British Columbia to southern California; and the lesser electric ray, which resides in the Caribbean.

Although biologists have studied most of these electric fish, they do not fully understand the process by which the fish can manufacture electricity. Special cells in the fish's body act as electric producers, and chemical changes within the cells cause a buildup of electricity.

Tissues composed of these cells are arranged like plates in a battery and can be discharged when needed.

The larger rays and the electric eel of South America can discharge up to several hundred volts—enough to stun and knock down an adult.

Fish use their electric power to disable other fish for food, and to warn away anything which might pose a threat to them.

## Pitch, hit, and run slated in May

By RICH ADAMS  
Major League Baseball's official youth program, called pitch, hit, and run, will be conducted in Bay St. Louis at Tiger ball park in mid-May, according to local event director Billy Rhodes.

The sporting event is in its third year, and this year will be sponsored by 2,300 participating Burger King restaurants.

The program is co-sponsored by the National Recreation and Park Association and is developed in cooperation with the President's Council on Physical Fitness and Sports. Rhodes said Thursday no definite date has been set for the competition, but said a tentative mid-May program is planned for Bay St. Louis.

The competition is open to boys and girls age 9 through 12, and approximately 2.4 million children are expected to participate in this year's event.

Each youth will participate in three events: pitching at a target, hitting for distance, and running the base path for

speed.

In pitching, each competitor is allowed three throws into a target 46 feet away. Each successful pitch is worth 50 points.

In hitting, each entrant is permitted three swings (fair or foul) with the longest fairly counted towards the total point score at one point per foot.

In the running event, a youngster runs the Major League distance of 90 feet from home plate to first base with his or her score determined on a point chart based on elapsed time.

Major League Baseball Commissioner Bowie Kuhn said he expects the 1979

program "to be the biggest and best yet."

"Major League Baseball is pleased Burger King has joined our team," Kuhn said.

Boys and girls may obtain PH&R registration forms from the Burger King restaurant on US-90 in Bay St. Louis or the Bay St. Louis Parks and Playgrounds Commission beginning April 2.

Competition continues through four levels of elimination until two contestants remain in each age bracket.

The finals will be conducted as part of the Major League All-Star game festivities on July 17.

## Bay netters break slump

By RICH ADAMS  
The Bay High tennis squad broke a string of losses Thursday as they defeated the Our Lady of Victory netters in a tennis duel, 4-1.

"We showed a lot of improvement," said Bay Head Coach Ron Holifield.

"I hope we can continue to improve. I think we have a chance to move over .500 next week," he added.

In girls' singles, Kathleen Martin defeated OLV's Bethany Doyle, 6-0, 6-0.

Bay High's Lester Martin eliminated Eric Enger of OLV

6-0, 6-4, and 6-1.

Bay High's boy's doubles duo of Kenny Gilmore and Don Fayard defeated Chris Tibbetts and Tom Jansen 6-3, 6-7, and 7-6.

The mixed doubles team of Robby Boyd and Ann McCarthy beat OLV's brother-sister team of Elliot and Nora Mestayer in two straight sets, 6-0, 6-0.

Bay's only loss came when Ann Johns and Tricia diBenedetto dropped a set to Julie Spartman and Stephanie Milburn, 6-4, 5-7, and 3-6.

The Bay 'B' team defeated the OLV netters 5-0 in earlier play.

The Bay squad travels to OLV Tuesday at 3:30 p.m. to meet them on their home courts.

Kathleen Martin

Tryouts for Bay St. Louis Little League have been slated for Saturday, April 7, from 9 a.m. to noon at the Little League field in McDonald Park, Little League President Donn Murray said.

All boys ages 9 through 12 are eligible for tryouts.

All boys participating must bring birth certificates to present to the Little League Association at the tryouts.

The Little League Association recently announced its 1979 officers. The officers are;

Donn Murray, president; Rowe Crowder, vice-president; Noline Breland, secretary; John Rosetti, treasurer; Ronnie Murray, umpire-in-chief; and Woody Pierce, player agent.

Murray announced that for the first time, the Little League Association has selected a representative in the Bay St. Louis Miss Hospitality contest.

Lisa Thomas, a senior at Bay High, has been named to represent the organization.

## Harrison Central edges Rock thinclads

By RICH ADAMS  
The St. Stanislaus Rock-A-Chew thinclads were edged by

the Harrison Central Rebels Thursday night in a track meet, losing by a 63-61 two-

point margin. SSC's Charlie Vincent took first place in the high jump,

long jump, and 220 yard dash, and the Rocks overall took more first place wins than the Rebels.

"They had more depth and took more second and third places," said SSC Head Coach Billy Poole.

"We bettered some times and won eight first places, but they beat us in depth," he continued.

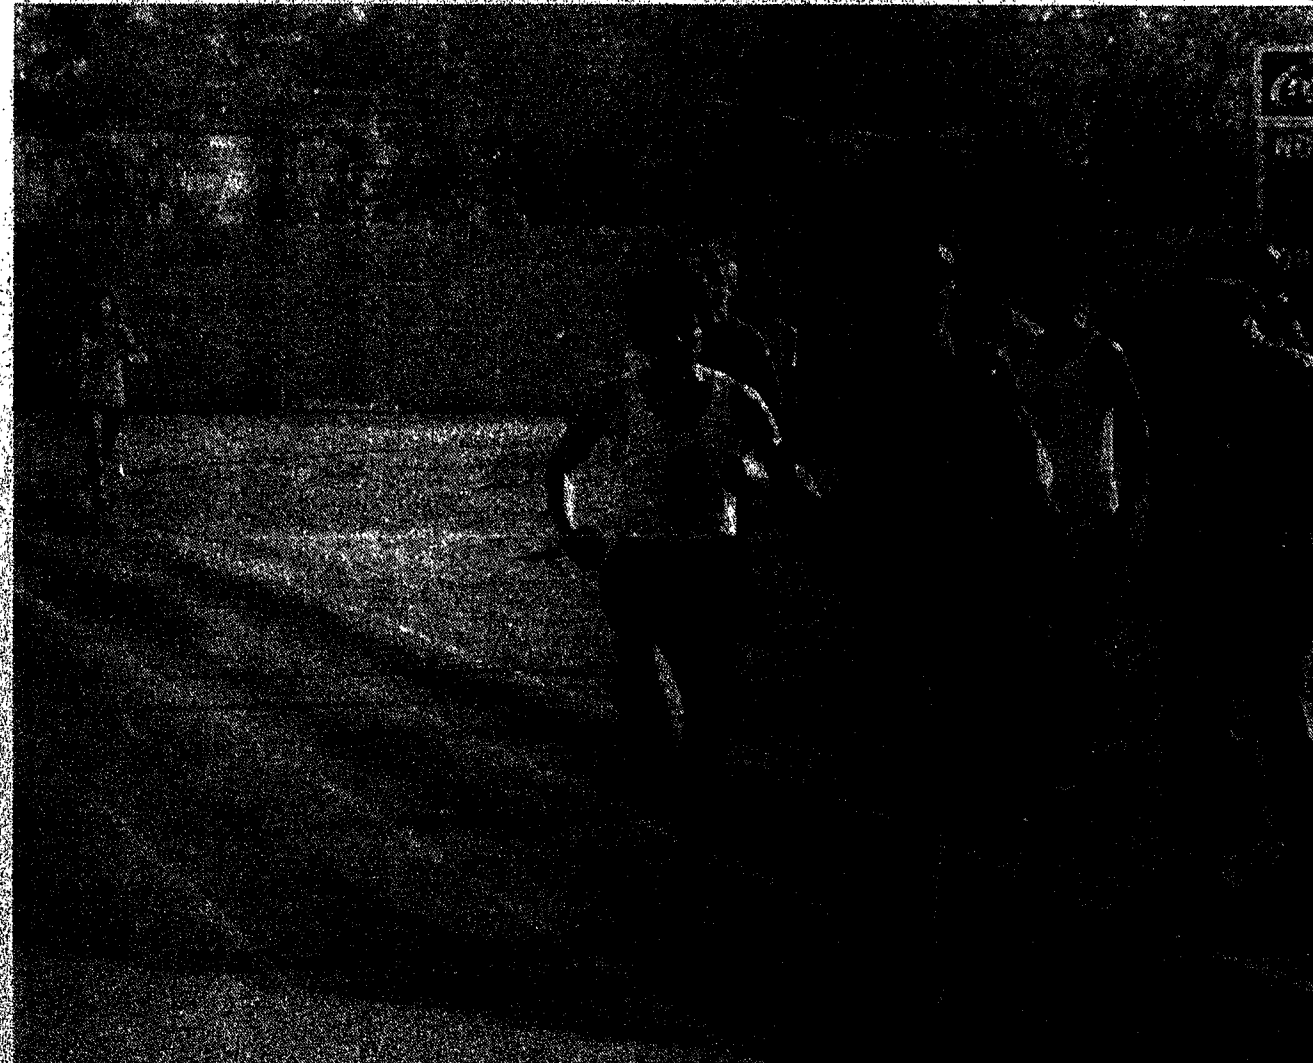

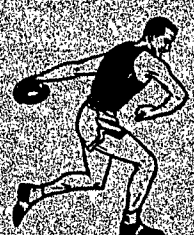

"I was real pleased in the way the boys ran. There are still a few runners injured, and we are not at our full capacity," he added.

Vincent recorded a time of 23.5 in the 220 yard dash, a 5-foot-eight in the high jump, and long jumped 19 feet, 2.5 inches.

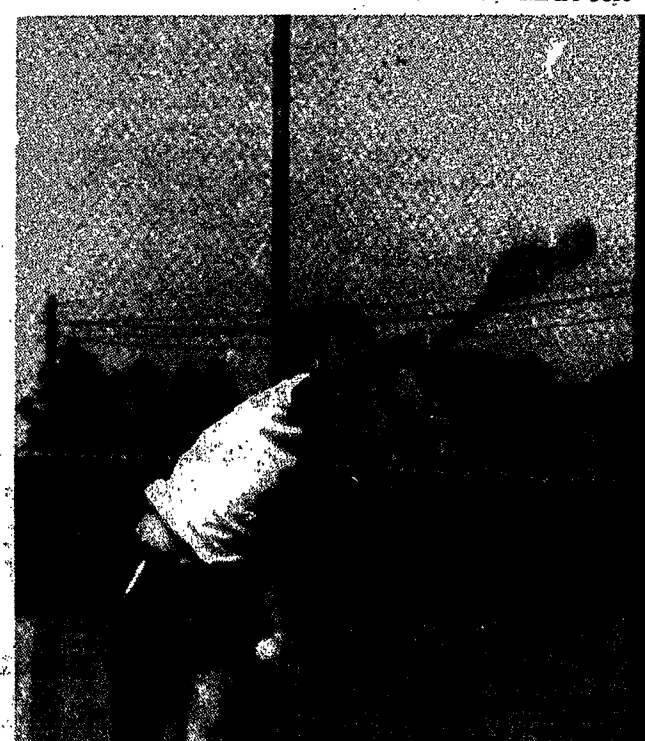

Stanislaus also recorded wins in the discus, shot put, mile relay, 440 yard dash, and 880 yard run.

The Rocks resume action in the Biloxi Invitational meet Tuesday afternoon.

MISSISSIPPI DEPARTMENT OF AGRICULTURE AND COMMERCE  
AND  
UNITED STATES DEPARTMENT OF AGRICULTURE

Jackson, Mississippi—March 23, 1979—Federal, State.

SUMMARY OF MISSISSIPPI LIVESTOCK AUCTIONS WEEK ENDED MARCH 22, 1979.

Cattle Weight: 11,570 compared 12,800 last week and 16,000 a year ago. Slaughter Cows steady 3.00 higher. Bulls steady 2.00 higher. Feeder Steers steady 1.75 higher. Heifers steady 1.00 higher.

### Slaughter Cattle

Cows: Commercial 2-3 50-55-57.00, Utility 48-60.00, Calf 1-2 82.00-83.75. Bulls: Yield Grade 1-2 900-1700 lbs. 57.00-69.00.

### Feeder Cattle

Stewers and Bulls: Choice 275-290 lbs. 120.00-160.00, mostly 130.00-140.00, 25-30 lbs. 109.00-115.00, 305-350 lbs. 107.00-127.00, 350-400 lbs. 99.00-117.00, 400-450 lbs. 95.00-115.00, 500-550 lbs. 88.75-99.00, 600-700 lbs. 77.00-85.00, 700-800 lbs. 74.00-86.00, 800-900 lbs. 68.00-128.00, mostly 105.00-115.00, 900-1000 lbs. 138.00, 100-100 lbs. 89.00-118.00, mostly 100.00-110.00, 100-100 lbs. 85.00-105.00, mostly 85.00-95.00, 500-550 lbs. 77.50-92.50, 600-700 lbs. 75.00-86.00, Standard 200-300 lbs. 71.00-115.00, 300-400 lbs. 82.00-105.00.

Heifers: Choice 275-300 lbs. 95.00-117.00, mostly 100.00-110.00, 300-400 lbs. 85.00-105.00, mostly 93.00-102.00, 500-550 lbs. 80.00-96.50, mostly 92.00-99.00, 500-550 lbs. 74.00-87.00, 600-700 lbs. 68.00-71.00, Good 200-300 lbs. 85.00-109.00, mostly 90.00-100.00, 300-400 lbs. 76.50-102.00, mostly 85.00-95.00, 400-500 lbs. 72.00-93.50, mostly 75.00-86.00, 500-600 lbs. 65.00-80.00, mostly 70.00-77.50, 600-700 lbs. 64.50, Standard 200-300 lbs. 73.00-86.00, 300-400 lbs. 65.00-70.00.

### LIVESTOCK SLAUGHTER February 1979

Livestock slaughter during February in Mississippi totaled 138,800 head weighing 41,308,000 pounds liveweight, the Mississippi Crop and Livestock Reporting Service announced.

This is 51,600 head and 7,478,000 pounds liveweight above February 1978. The February slaughter consisted of 12,900 cattle weighing 12,126,000 pounds liveweight; 1,100 calves weighing 681,000 pounds liveweight; 124,800 hogs weighing 28,521,000 pounds liveweight.

The average liveweight per head of animals slaughtered was: Cattle 997, calves 595, and hogs 228 pounds.

Commercial production of red meat totaled 28,527,000 pounds during February, 20 percent below January but 38 percent above February 1978. The January-February red meat production totaled 59,508,000, 32 percent above a year earlier.

### UNITED STATES

Commercial red meat production for the United States in February 1979 totaled 2.78 billion pounds, down 9 percent from February 1978, according to the Crop Reporting Board.

January-February red meat production at 6.04 billion pounds was 4 percent below last year's change by individual components: Beef, down 6 percent; veal, down 35; pork, up 4; lamb and mutton, down 4 percent.

Commercial red meat production includes a slaughter in federally inspected and other plants, but excludes animals slaughtered on farms.

Kill days for February included 20 weekdays (one a holiday) and 4 Saturdays, the same as February 1978.

Comparing February 1979 with February 1978:

**BEEF PRODUCTION** at 1.70 billion pounds was down 13 percent. Head kill at 2.74 million was down 16 percent while average liveweight increased 22 pounds to 1052.

**VEAL PRODUCTION** at 35 million pounds declined 37 percent from a year ago. Calf slaughter at 240 thousand head was down 38 percent, while average liveweight increased one pound to 244.

**PORK PRODUCTION** totaled 1.00 billion pounds, down 1 percent from a year ago. The 5.95 million head killed was down 2 percent, while average liveweight increased 4 pounds to 237.

**WEEKLY BROILERS** Week ending: March 24. Hatcheries in the State set 6,719,000 eggs for broiler chicks during the week ending March 24, 1979, 1 percent above the previous week and five percent above the 6,300,000 set the corresponding week a year ago.

There were 3,067,000 broiler chicks placed on Mississippi farms during the week ending March 24, 1979, slightly above the previous week and 3

percent above the 5,707,000 placed the corresponding week a year ago.

Cumulative placements for 1979 are 86,906,000 broiler chicks—3 percent above a year earlier.

### EGG TYPE

Hatcheries in the State set 242,000 eggs for egg-type chicks during the week ending March 24, 1979, 28 percent below the previous week and 37 percent below the 385,000 set during the comparable week a year ago.

Hatch of egg-type chicks was 323,000, 4 percent below the previous week but 2 percent above the 317,000 hatched during the comparable week a year ago.

In the five states that accounted for about 26 percent of the hatch of all egg-type chicks in the U.S. in 1978, settings during the week ending March 24, 1979 were up 22 percent and hatchings were 3 percent above a year ago.

### CHICKENS & EGGS February 1979

Mississippi's 6,945,000 layers produced 128 million eggs in February 1979, according to the Mississippi Crop and Livestock Reporting Service. This is a million (6 percent) below the 138 million eggs produced in February 1978.

Broiler-type chicks hatched in Mississippi during February totaled 21,378,000—1,746,000 (9 percent) above the February 1978 hatch. The hatch of egg-type chicks was 1,020,000—155,000 (13 percent) below the 1,175,000 egg-type chicks hatched in February 1978.

There were 22,480,000 young chickens slaughtered under Federal inspection during January 1979 in Mississippi. This is 12 percent above the 20,149,000 inspected during January 1978. January Post Mortem condemnations were 2.28 percent, as compared to 1.68 percent in January 1978.

## MISSISSIPPI WEEKLY WEATHER REPORT

Week ending: March 25

### WEATHER SUMMARY (National Weather Service):

Mild was the rule for the week ending Friday, March 23. Temperatures ranged as much as 8 to 10 degrees above normal in some locations. Extremes ranged from 85 degrees at Kosciusko on the 19th to 35 degrees at Ripley on the 17th.

A strong cold front moved across the state Thursday night and Friday, bringing moderate to heavy rains to most locations. Gulfport reported 2.01 inches in a 24-hour period ending at 6:00 a.m. Friday. Windy and cooler weather prevailed over the state through the weekend.

However the cloudy skies Friday gave way to abundant sunshine Saturday and Sunday.

**CROP SUMMARY:** Land preparation was active throughout most areas of the state early and midweek but rains late in the week stopped fieldwork in many areas.

Soil moisture supplies were generally adequate in the southern one-third of the state and adequate to surplus elsewhere. An average of 3.6 days was suitable for fieldwork compared to 2.9 days last week and 4.0 days for the same week last year.

About 39 percent of the acreage intended for spring planting crops has been plowed compared to 27 percent last year at this time and 41 percent for the 5-year average.

The corn acreage was 17 percent planted compared to last year's 15 percent.

Irish potatoes were 52 percent planted compared to 63 percent last year.

About 55 percent of the watermelon acreage was planted.

Winter wheat was in fair to good condition and 12 percent of the acreage was jointing compared to 21 percent last year.

Hay and roughage supplies and feed grain supplies were stored on farms were rated short to adequate.

Pastures continued to improve and were rated fair to good in southern areas and fair to poor elsewhere.

Livestock condition was fair.

### "COMMENTS"

**BOLIVAR CO.** "About 25,000 acres of cotton land hipped. Some light work on higher bean and rice land. We need 10-15 days of sunshine and higher temperatures in order to be prepared to plant rice by 15th April."

**BENTON CO.** "With the warm, dry weather the past week farmers are in full swing disking, spreading fertilizer and spreading chemicals."

**PONTOTOC CO.** "Part of our soils were getting dry enough to blow before the rain at the end of the week."

**ISSAQUENA CO.** "Water backing out in the lower county and seep water beginning to show up along the Mississippi River levee."

**CHOCTAW CO.** "Fields were just beginning to get dry enough to start plowing, but 2 1/2" rain Thursday night stopped that."

**NESHOBAY CO.** "The first corn was planted this week. Farmers are starting to

prepare soil. The winter grazing crops are looking real good, some are already grazing."

**ADAMS CO.** "Some land preparation was underway before being stopped by Thursday's rain. Farmers are readying equipment in earnest to be ready to go if we can get a few days to dry out. Mississippi River still flooding delta cropland."

**COVINGTON CO.** "Received about one inch rain Friday night. Ryegrass pastures looking real good. Farmers continue land preparation."

Secretary of Agriculture Bob Bergland on March 12 suspended the U.S. Department of Agriculture's technical and cost-share assistance of the herbicides 2,4,5-T and 2,4,5-TP for forestry, rights-of-way and pasture uses.

Earlier this month the department suspended its use of the herbicides for those purposes.

"We do not want to take even a remote chance that any of our programs will result in health hazards to the American People," Bergland said.

The Department will, however, continue to provide financial and technical assistance to farmers and ranchers using 2,4,5-T and 2,4,5-TP on range or rice fields.

These uses were not included in the March 12 emergency suspension by the Environmental Protection Agency on the sale, distribution and use of these herbicides.

The herbicides are widely used in the United States and other countries to control brush and weeds on forest, pasture, range and other land, including rights-of-way.

The Department's agencies affected include the Forest Service, which administers the national forest system lands; Agricultural Stabilization and Conservation Service (ASCS), which provides cost-sharing assistance to farmers and ranchers for installing conservation and forestry practices; and Soil Conservation Service (SCS), which provides technical assistance to land users.

Bergland said SCS and ASCS field personnel will review their cost-share agreements and contracts with farmers and ranchers as soon as possible so they can be modified to comply with the suspension order.

The rate and frequency of 2,4,5-T or 2,4,5-TP use for brush and weed control on range and rice fields is not as great as in other agricultural and silvicultural uses, Bergland said.

"And the alternatives are costlier, less effective or have other undesirable environmental tradeoffs," he said.

The Washington office of the Agricultural Stabilization and Conservation Service (ASCS) has requested county ASCS offices to assist with the petroleum allocation programs in every way possible.

Gennin went on to say that the Mississippi Fuel and Management Commission (FEMC) has responsibility in this State for the administration of petroleum allocation programs as outlined by the U.S. Department of Energy.

Farmers are entitled to 100 percent of their requirements to butane, propane, and motor gasoline. Diesel fuel has been decontrolled.

In accordance with an agreement between ASCS and

### ASCS Hancock-Pearl River

Bergland said the Department's field personnel would continue helping farmers and other land users understand the potential health hazards of these and other herbicides in all allowable uses.

Farmers who planted wheat for 1979 harvest now have another option to consider. They may graze or cut hay on their wheat acreage, Secretary of Agriculture Bob Bergland reported.

Wheat grazed or cut for hay under the special acreage grazing and hay program will qualify for the same deficiency payment rate as wheat harvested for grain.

Wheat program participants will be allowed to graze cattle or cut hay on wheat acreage equal to the higher of (1) 50 acres or (2) 40 percent of their total intended plantings of wheat, feed grains (corn, sorghum, and barley) and upland cotton.

"We are taking this action to encourage the production of more beef later on this year," Bergland said, "Calves now on wheat pasture ordinarily would have to come off and be sold about March 15 to permit the wheat to mature for harvest, while the action we are taking today would permit them to remain an additional 60 days or so."

This should result in slightly higher rates of gain and therefore the movement of few more calves onto wheat pasture and more beef from those calves as well.

The Washington office of the Agricultural Stabilization and Conservation Service (ASCS) has requested county ASCS offices to assist with the petroleum allocation programs in every way possible.

Gennin went on to say that the Mississippi Fuel and Management Commission (FEMC) has responsibility in this State for the administration of petroleum allocation programs as outlined by the U.S. Department of Energy.

Farmers are entitled to 100 percent of their requirements to butane, propane, and motor gasoline. Diesel fuel has been decontrolled.

In accordance with an agreement between ASCS and

FEMC, the Pearl River Hancock County ASCS Office will (1) maintain a supply of forms and make them available to farmers and others, (2) assist farmers in preparing these forms, and (3) verify information on forms when requested to do so by the FEMC.

Gennin emphasized that the local ASCS office has no

responsibility whatsoever in the allocation of fuels.

However, Gennin went on to say that forms to be used in connection with this program should be available soon in the ASCS office.

Farmers having need of additional fuel for the production of food or fiber should contact the county ASCS office.

## The Ole Pastor Says

GOD'S WORD AND Malachi, the last of the Old Testament writers, said, "Bring ye all the tithes into the storehouse, that there may be meat in mine house, and prove me now herewith, saith the Lord of hosts," Mal. 3:10.

The Bible says that Abraham "gave... tithes of the Lord of hosts," Mal. 3:10. Gen. 14:20. Jacob, the grandson of Abraham, said, "Of all that thou shalt give me, I will surely give the tenth (a tithe) unto thee," Gen. 28:22. Moses said, "And all the tithes... is the Lord's; it is holy unto the Lord," Lev. 27:30.

### In service

**SGT. W.W. POLKE**  
Technical Sergeant Walter W. Polk, whose brother is Henry K. Polk of Long Beach, has graduated from the Strategic Air Command Noncommissioned Officer Academy at Barksdale AFB, La.

The sergeant, who received advanced military leadership and management training, is an avionics instrument technician at England AFB, La.

Sergeant Polk is a 1959 graduate of Columbia High School and attended the University of North Dakota and the University of Southern Mississippi. His wife, Pauline, is the daughter of Mrs. Carrie Lambert of 78 Bay Ave., Columbia.

**SGT. D.M. MUELLER**  
Sgt. David M. Mueller of Pass Christian, recently participated in a 30-day field training exercise at the Pohakuloa Training Area on the Island of Hawaii.

The annual training includes cold weather operations at squad and platoon levels.

Mueller is a fire direction controller with the 25th Infantry Division at Schofield Barracks, Hawaii.

The sergeant's wife, Norma, is with him in Hawaii.

### VA news

Q - I am on active duty but I will be granted excess leave to attend school under the G.I. Bill. Will I be paid as a serviceman or veteran?

A - An in-service student attending school under the G.I. Bill while on excess leave without pay, if otherwise eligible, may be paid educational assistance allowance at the rate payable to eligible veterans.

Q - Is it possible also for an unmarried spouse of a veteran who died of a service-connected disability to obtain a VA home loan?

A - Yes, it may be possible also for an unmarried widow or widower to qualify for restoration of entitlement in order to reuse the home loan entitlement more than once.

Check with your nearest VA regional office for more details.

Q - How can I get a VA certification of my disability for IRS purposes?

A - You should request certification of your disability in writing or you may call or visit your nearest VA regional office in person.

Q - Can an individual receiving dependents' educational assistance from the Veterans Administration also receive VA work-study benefits?

A - No, VA work-study allowances cannot be paid to persons on dependents' educational assistance. Only a veteran is entitled to the program.

Q - I have heard that some mortgage companies will make a 40-year home loan. Will the VA guarantee a 40-year loan for me to buy a home?

A - No, VA Home Loans can be made for a maximum of 30 years and 32 days.

Q - Does a widow or widower lose entitlement for life to Veterans Administration benefits if she or he remarries?

A - No, A widow or widower may reclaim eligibility for Veterans Administration benefits if the remarriage is terminated by death, divorce or annulment.

He "of whom it is witnessed that he liveth," is our High Priest as well as "Head over all things to the church" now. It is our high and holy privilege to give our tithes and offerings to Him through His church. "Unto him be glory in the church by Christ Jesus..." Eph. 3:21.

Paul instructed the church at Corinth, as he had other churches: "Let everyone of you lay by him in store, as God hath prospered him..." I Cor. 16:2.

This can be done only by a designated percentage. The only percentage mentioned in the Bible is ten percent or a tithe.

Never anything below this. The only amount mentioned above this is a hundred percent which was demonstrated by the "poor widow" who gave "all the living that she had," Luke 21:1-3.

This is only a part of what God's Word says on this much-evaded subject. What do you say about it? What's more important: what are you doing about it? God's plan is the "Tithes and Offerings!"

What is your plan? God's plan will work! Human innovations will not. It is high time that we all learn and acknowledge that tithing did not have its beginning with Moses and the law dispensation. Consequently, it did not pass away with that dispensation.

The ancient principle and practice of tithing is the basis of all scriptural giving, for this and every other dispensation, had its beginning before the law, was sustained and incorporated in the law, never being revoked after the law; it is as much God's plan today as it was in Abraham's and Jacob's day.

Then why are there so many evasive and "half-splitting" arguments on this question today? God's Word supplies the obvious answer: "For the love of money is the root of all evil; which while some coveted after, they have erred from the faith, and pierced themselves through with many sorrows..." I Tim. 6:10.

It might be good to study such other passages as II Tim. 3:1-5; Matt. 6:19-21; Luke 6:38; Acts 20:35; I Cor. 9:5-14; II Cor. 9:6-7; Prov. 3:9-10; II:24-25; Haggai 1:2-9; Malachi 3:8-11.

Be prayerful in your study. Be honest with God and yourself. Giving is the bedrock principle upon which Christianity stands and lives! "For God so loved..." that he gave... John 3:16.

Q - How can I get a VA certification of my disability for IRS purposes?

A - You should request certification of your disability in writing or you may call or visit your nearest VA regional office in person.

Q - Can an individual receiving dependents' educational assistance from the Veterans Administration also receive VA work-study benefits?

A - No, VA work-study allowances cannot be paid to persons on dependents' educational assistance. Only a veteran is entitled to the program.

Q - I have heard that some mortgage companies will make a 40-year home loan. Will the VA guarantee a 40-year loan for me to buy a home?

A - No, VA Home Loans can be made for a maximum of 30 years and 32 days.

Q - Does a widow or widower lose entitlement for life to Veterans Administration benefits if she or he remarries?

A - No, A widow or widower may reclaim eligibility for Veterans Administration benefits if the remarriage is terminated by death, divorce or annulment.

Q - How can I get a VA certification of my disability for IRS purposes?

A - You should request certification of your disability in writing or you may call or visit your nearest VA regional office in person.

Q - Can an individual receiving dependents' educational assistance from the Veterans Administration also receive VA work-study benefits?

A - No, VA work-study allowances cannot be paid to persons on dependents' educational assistance. Only a veteran is entitled to the program.

# Take a fresh look at Produce!

Where do you go for the freshest fruits and vegetables? To the farm, of course. So A&P brings The Farm to you. Somewhere in the world, it's harvest time. And that's exactly where A&P's eagle-eyed produce buyers are right now—gathering the pick of the crop and getting it rushed to The Farm in your nearby A&P Store. Their demanding standards and their ability to buy in large quantities means you get exceptional value whenever you buy produce at A&P. So come take a fresh look at The Farm at A&P. And get to know the Farm Manager. He's so proud of his fine fruits and vegetables, you'd think he grew them all himself! And he'll help you find exactly what you need to be equally proud when you serve it to your family.

You'll do better at...
